Wheelchair accessibility for home or public buildings over straight stairways

Folds up compactly when not in use leaving access to the stairs

Custom order for your specific needs

Savaria® Delta Inclined Platform Lift

ACCESS OVER STRAIGHT STAIRS

The Savaria Delta inclined platform lift provides wheelchair access over straight stairs as it travels along a modular guide rail system. When not in use, the unit folds compactly to the wall, leaving access to the stairs. The Delta lift is a popular choice for churches, schools and homes with minimal construction needed for installation.

Battery operated with charging stations located at the top and bottom of the stairs, the lift continues to function even through a power failure. Choose from four platform sizes, including ADA-compliant size, and select options such as a folding seat, automatic folding/unfolding or a public building package.
Savaria® Delta Inclined Platform Lift

ACCESS OVER STRAIGHT STAIRS

• Folds up compactly (18”/45.7 cm) from the wall when not in use allowing easy access to the stairs
• Durable construction and reliable components to stand up to day-to-day use even in commercial settings
• Easy installation, often without major construction requirements
• Configure for straight through access or 90° entry/exit with a variety of standard platform sizes available
• Battery operation with top and bottom landing charging stations
• Pendant control with constant pressure operation, keyed for security
• Safety features include edge and underpan obstruction sensors, overspeed safety brake, safety arms, platform ramps, emergency stop button, limit switches, manual operation (using handwheel), lockable master power switch
• Optional features: automatic folding/unfolding for platform and arms, public building package, folding seat
