luxury & convenience

home elevators by savaria
Classic at its finest.

Your choice of luxury MDF or stainless steel cab, finished with stainless steel fixtures and automatic slim doors on the cab and landing. Refined elements include a touchpad phone on the cab operating panel (COP), and upgraded cab rollers for an ultra-smooth ride.

Create a lifetime home

Your dream home deserves a dream elevator. Adding luxury and convenience for today also provides easy accessibility for all, making your home barrier-free for years to come.

Whether you are renovating or building new, a Savaria home elevator will enhance your home and its resale value. You demand high quality and excellent value for your investment; when you choose Savaria, you get the best of both worlds: A Savaria elevator is luxurious value, built reliably – just for you.

Customize your solution

Your home is a reflection of your personal style; your Savaria home elevator can be too. Create the perfect solution tailored to your unique needs and design sense, from a wide selection of model and configuration options, finishes, and accessories.

Or, eliminate the guesswork with pre-selected finishes and features, designed to work beautifully together. Choose from three upgrade packages – slim luxury, ultimate black or glass elegance – created to bring you distinct styling and popular options at significant savings.
Savaria Zenith
finest ride quality; whisper-quiet operation

The Zenith is Savaria’s top-of-the-line traditional home elevator. Based on our commercial-grade Orion MRL elevator, the robust Zenith features a unique geared traction counterweight design and high 1,400 lb capacity. Requiring only a small space in a closet for components, the elevator can be installed without a traditional machine room.

Savaria Infinity
smooth-riding traditional hydraulic drive

The Infinity’s precision hydraulic drive system is dependable and compatible with the use of LEED-qualified Hydro Safe hydraulic vegetable oil. This design houses drive components in a machine room that can be located where best suited in your home. Available with capacity up to 1,000 lb, or choose the Infinity HD version for 1,400 lb capacity or larger cab size.

Savaria Eclipse
best-seller with machine roomless option

The Eclipse is Savaria’s most popular home elevator, and a cost-effective choice. The durable geared chain drive design installs quickly, provides a stable ride and does not require a separate machine room. An environmentally-friendly counterweight system reduces motor effort – and therefore power consumption. An Eclipse HD version is available with a 950 lb capacity and cab up to 48” wide.

Beauty, brawn & brains

Your Savaria home elevator is built with care using reliable components to provide you with dependable performance, and to meet or exceed the strictest elevator, electrical, mechanical and building safety guidelines.

Behind the beautiful exterior is one of the smartest brains around; the microprocessor-driven controller is demonstrably reliable and designed for up to 6 stops.

Choose from three feature-packed models with options to suit virtually any configuration: the Zenith, Infinity or Eclipse.

Make a bold statement.

Blackened stainless steel fixtures and integrated touchpad phone on luxury MDF, with black automatic slim doors on the cab.

1 consult your dealer for local code restrictions
2 sizes higher than 15 square feet and 950 lb capacity available where code permits
Clearly modern.
Framed glass automatic slim doors on the cab and landing open into a glass cab with your choice of unfinished veneer or melamine COP wall. Upgraded finishes and a touchpad phone complete the look.
Create your own personal elevator from our wide selection of options. Choose from a range of cab styles and sizes, then select your finishes to complement and complete your solution. You can even have your own contractor finish your elevator on site.

**Elevator Cab Interiors**

Your options include finished hardwood or unfinished veneer cabs in traditional species including oak, cherry and maple. We also offer scratch and fade-resistant luxury MDF panels in a variety of colors and finishes. Our standard elevator includes your choice of melamine or unfinished MDF, and white ceiling with four LED pot lights.

**Automatic Slim Doors**

Add convenience and an elegant, modern appearance to your Savaria home elevator with automatic slim doors. These commercial-grade doors can be used as a complete system, or in combination with a swing-style landing door. Finish in stainless steel, powder coated paint, or framed glass.

**Bifold Doors**

A simple, automatic solution for cab doors. Select from architectural white or stainless steel.

**Accordian Gates**

Featuring a sturdy hard hinge to prevent deflection, accordion gates tuck discretely away to leave an unobstructed entry. Choose from a wide selection of panel colors and frame finishes. Add an automatic opener for convenience and ease of use.

**Fixtures**

- Stainless Steel upgrade on handrail
- Brushed Brass upgrade
- Blackened Stainless Steel upgrade
- Architectural White powder coat
- Bronze anodized aluminum
- Clear anodized aluminum

See color chart for more detail.
### Standard specifications

- **Capacity:** 750 lb, 950 lb, 1,000 lb or 1,400 lb (Zenith or Infinity only, code permitting)
- **2 stops with up to 10’ of travel**
- **Fully automatic operation**
- **Running speed 40 ft/min (Zenith, Eclipse) or 36 ft/min (Infinity)**
- **Illuminated automatic push button operation on hall call stations; in-use indicator lights**
- **Digital display (floor and directional indicator) in car operating panel (COP)**
- **Available alpha numeric button marking**
- **Homing feature**
- **80” or 84” cab height**
