Cash and cash equivalents include bank balances and temporary investments with an initial maturity of three months or less.

1. CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The unaudited consolidated interim financial statements were prepared by the Corporation in accordance with Canadian Generally Accepted Accounting Principles ("GAAP") applicable to interim financial statements and follow the same accounting policies and methods of their application as the most recent annual financial statements, except for the new accounting policy mentioned below. In the opinion of Management, all adjustments necessary for a fair presentation are reflected in the interim financial statements. Such adjustments are of a normal and recurring nature. The unaudited consolidated interim financial statements have not been reviewed by the Corporation's external auditor and should be read in conjunction with the audited annual consolidated financial statements and notes thereto for the year ended December 31, 2009.

Change in functional currency of a self-sustaining foreign operation

Effective January 1, 2010, the Corporation adopted the Chinese Renminbi as the functional currency of its Chinese subsidiary as a result of the continued decentralization of its management, of the development of a local market for its products and services and of its cash flows no longer being dependent upon its parent company's activities. Prior to that date, the subsidiary was considered to be an integrated foreign operation with the Canadian dollar as its functional currency.

2. CHANGES IN ACCOUNTING POLICIES

Future Accounting Changes

Section 1582: Business Combinations, Section 1601: Consolidated Financial Statements, and Section 1602 : Non-Controlling Interests

In 2009, the CICA issued three new accounting standards: Section 1582, Business Combinations, Section 1601, Consolidated Financial Statements, and Section 1602, Non-Controlling Interests. These new standards will apply to the Corporation's financial statements for the fiscal year beginning on January 1, 2011. The Corporation is in the process of evaluating the requirements of the new standards.

Section 1582 replaces Section 1581, and establishes standards for the recognition of a business combination. It provides the Canadian equivalent to International Financial Reporting Standard IFRS 3, Business Combinations. The Section applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2011.

Sections 1601 and 1602 replace Section 1600, Consolidated Financial Statements. Section 1601, establishes standards for the preparation of consolidated financial statements. It applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. Section 1602 establishes standards for the recognition of a non-controlling interest in a subsidiary. It is equivalent to the corresponding provisions of International Accounting Standard IAS 27, Consolidated and Separate Financial Statements, and applies to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011.

International Financial Reporting Standards ("IFRS")

In February 2008, Canada's Accounting Standards Board confirmed that Canadian GAAP, as used by public Corporations, will be superseded by IFRS for fiscal years beginning on or after January 1, 2011. The Corporation will be required to report under IFRS for its interim and annual financial statements for the fiscal year ending December 31, 2011.

3. BUSINESS ACQUISITION

On February 1, 2010, the Corporation acquired 100% of the outstanding common shares of Concord Elevator (London) Ltd, a retailer specialized in the installation and maintenance of elevators and platform lifts in the province of Ontario. The agreement provides for an initial payment of \$1,500,000 on the date of acquisition and four annual payments of \$600,000 on the anniversary date of the acquisition. This note payable bears no interest and was recorded at its estimated fair value based on the net present value of the future cash flows calculated a rate of 6.5%. The transaction includes a potential 1 million common shares to be issued one year after the signing of the agreement if certain conditions are met. Considering the uncertainty as to the fulfilment of the said conditions, this conditional consideration has not been booked. If this condition is fulfiled, the acquisition price will be increased according to the fair value of the shares at the time when the condition is fulfiled. Goodwill will therefore be increased by the same amount.

This acquisition has been accounted for using the purchase method, and the operating results have been included in the consolidated financial statements from the date of acquisition. Since certain information is not yet available, the breakdown of the purchase price presented below is preliminary and is based on the Corporation's estimates.

Assets	
Cash	\$ 727,217

	\$	4,194,730	\$	5,757,785

The Corporation holds restructured notes ("Restructured Notes") with a face value of \$2,074,514 (US \$2,042,247). These notes were issued in replacement of Asset Backed Commercial Paper ("ABCP") formerly held by the Corporation. Pursuant to the terms of a restructuring plan, holders of ABCP had their short-term commercial paper exchanged for longer term notes whose maturities match those of the assets previously contained in the underlying conduits.

The Restructured Notes are classified as held-for-trading financial instruments.

Evaluation

The fair value estimate of the Restructured Notes has been calculated based on information provided by the Pan-Canadian Investor Committee, Ernst & Young Inc., the Monitor of the restructuring, and BlackRock Canada Ltd., the asset administrator.

Using this information, the Corporation was able to determine the key characteristics of each class of Restructured Notes received: face value, credit rating, interest rate, projected interest payments and maturity date. It then estimated the return that a prospective investor would require for each class of notes ("Required Yield"). Lastly, it calculated the net present value of the future cash flows for each class using the Required Yield as the discount factor.

During the first quarter, the fair value of the Restructured Notes was affected by a number of positive factors.

In spite of some volatility in credit spreads as the markets reacted to the debt crisis in Greece, there has been a continued improvement in general corporate credit conditions since the last evaluation as at December 31, 2009. This reduction in credit risk had a positive impact on the intrinsic value of the Restructured Notes due to a general lowering of default risk and a decrease in the likelihood that credit risk limits built into the notes will be exceeded. Accordingly, the Required Yield on the notes has been reduced to reflect this easing in the credit markets.

6. LONG-TERM INVESTMENTS (Cont'd)

It is anticipated that the MAV 2 Class A1 notes will continue to miss interest payments as long as interest rates remain at the currently very low levels. Given statements by the Bank of Canada and the movement in interest rate markets, the Corporation projects that no interest payments will be made until mid-year, which is, however, an improvement in assumptions over the last quarter. This improvement has a positive impact on the valuation of those notes.

Another influencing factor is the simple passage of time. As with all debt instruments, the value of the notes will approach par as the maturity date approaches providing that they do not default.

The most influencing factor during the quarter was the increase in the value of the assets related to certain asset-tracking notes. Thus, the MAV 2 Class 13 and MAV 3 Class 25 asset-tracking notes benefited from an increase in their value during the quarter, which had a positive impact on the value of those notes.

The impact of these factors was an increase in the fair value of the Restructured Notes during the period. As a result of this analysis, the Corporation estimated the fair value of these notes to be \$1,342,891 (US \$1,322,003) as at March 31, 2010. Accordingly, the Corporation recorded a \$74,061 gain during the period as a partial reversal of impairments recorded in prior periods. Following this gain in value, there remains a balance of the reserve for impairment of \$731,624 (US \$720,244). It is to be pointed out that these notes are subject to uncertainty as to their eventual cash value. Although management believes that its valuation technique is appropriate under the circumstances, changes in significant assumptions could materially affect the value of the Restructured Notes in upcoming quarters. The resolution of these uncertainties could result in the ultimate value of these investments varying significantly from management's current best estimates. These investments are presented on a long-term basis.

During the first quarter, the Corporation received a total of \$40,738 (US \$38,005) in repayment of certain Restructured Notes. The amounts received were used as a partial reimbursement on loans secured by the Restructured Notes. As at March 31, 2010, the fair value of the Restructured Notes is estimated at \$1.3 million (US \$1.3 million) broken down as follows:

	Thousa	nds US \$	
Restructured Categories	Face Value	Estimated Fair Value	Expected Maturity Date
MAV 2 Notes			
A1 (rated A)	835.4	677.9	July 15, 2056
С	25.9	0.3	July 15, 2056
Traditional asset-tracking notes			
MAV 3 - Class 14	51.1	46.5	January 1, 2021
Ineligible asset-tracking notes			
MAV 2 - Class 13	131.5	23.3	March 20, 2014
MAV 3 - Class 25	998.3	574.0	December 25, 2036
Total investments	2,042.2	1,322.0	

On March 16, 2009, the Corporation signed two long-term financing agreements with its financial institution. The first agreement, having a balance of US \$912,421 as at March 31, 2010, matures in March 2012 and is renewable for one-year periods up to a maximum of four renewal periods. The second agreement, having a balance of US \$1,129,826 as at March 31, 2010, matures in March 2011 and is renewable for one-year periods up to a maximum of five renewal periods. Any renewal of these two agreements is subject to the financial institution's approval.

6. LONG-TERM INVESTMENTS (Cont'd)

The Corporation holds an option to assign to the bank the ownership of its ineligible asset-tracking notes as well as any proceeds therefrom as payment of 75% of the principal on the related debt. As at March 31, 2010, the Corporation estimated the fair value of this option at \$251,839 (US\$247,922).

The Corporation also holds an option to assign to the bank the ownership of its MAV 2 notes and traditional asset-tracking notes as well as any proceeds therefrom as payment of 45% of the principal on the related debt. As at March 31, 2010, the Corporation estimated the fair value of this option to be nil.

7. CAPITAL STOCK

A) Authorized :

Unlimited number of common shares with voting rights, participating and without par value Unlimited number of first preferred shares without par value and issuable in series Unlimited number of second preferred shares without par value and issuable in series

B) The following table reconciles the average number of shares outstanding with the calculation of the basic and diluted net earnings per share :

	Three months	ended March 31
	2010	2009
Weighted average number of shares outstanding	22,099,302	27,229,181
Effect of potential dilutive securities due to stock options	43,557	-
Weighted average number of shares outstanding for use in determining diluted earnings per share	22,142,859	27,229,181

8. SEGMENTED INFORMATION

The Corporation's business structure is divided into two sectors: the first consists of manufacturing and distributing residential and commercial accessibility equipment for people with mobility challenges (accessibility), and the second consists of converting and adapting vehicles for persons with a physical disability (adapted transport).

The business sectors are detailed as follows :

	Three months ended March 31							
		2010		2009				
	Accessibility	Adapted transport	Total	Accessibility	Adapted transport	Total
